ISF Marlins English Language Test

What is ISF Marlins English Language Test?

The ISF Marlins English Language Test (IMELT) is a computer-based assessment tool, which tests seafarers' understanding of written and spoken English. Use of the IMELT allows ship operators to demonstrate that seafarers, of whatever nationality, have been assessed on their ability to communicate in English, a necessity that has been given additional emphasis by the ISM code and the revised STCW Convention.

Why are seafarers required to undergo the test and have the certificate?

For some Flag States the certificate is mandatory and will be required to be presented when applying for a Flag State endorsement. Where this is not a Flag State requirement, Port state inspectors include in their inspection the standard of English required under STCW and the production of such certificate should provide them with satisfactory evidence of them meeting the requirements.

Certification:

Successful participants will be given a certificate.

Test schedule and fee:

ISF Marlins English Language Test,
Duration: 1 hr.
Schedule: Monday to Friday, Except Holidays
